Dmytro Bakay

Student at Florida Gulf Coast University

Fort Myers, Florida Area

Summary

I grew up in the age of computers, building my own personal computer from parts when I was a teenager. Having much interest in computers and all they have to offer I wanted to pursue a degree in Computer Information Systems, which I am currently attaining. I have certification in Microsoft Digital Literacy and am an avid writer. I also have 3 years of experience in hospitality from my work in the golf industry and have much experience in writing and mathematics from my STEM schooling. I was dual enrolled for the latter half of my high school years and attended Florida Southwestern University with General Education as the focus.

Education

Florida Gulf Coast University

Computer and Information Systems Security/Information Assurance · (2015 - 2022)

Florida SouthWestern State College

Educational Leadership and Administration, General · (2014 - 2015)
